

INSTRUCTIONS FOR THE HOT TUB

Thank you for renting a hot tub! Please read the conditions and instructions carefully before use.

GENERAL INSTRUCTIONS

Hot tub is ready to be used, just open its cover and lock. We have checked the chlorine and pH-levels before your stay.

Temperature is adjusted to 38°C. If the water is getting cold, please close the cover and wait for the water to heat up. The temperature will rise about 1-2 degrees / hour.

Keep the cover closed and locked, when not using the hot tub. This will prevent the chlorine from evaporating and helps to maintain the water temperature.

Please shower before entering the hot tub. If you have long hair, tie them up or use a shower cap. Take off all jewelry.

Do not use swimming suit in the sauna, because the chlorine steams up and might cause breathing problems to a sensitive user.

When checking out, return the key to Himos Center reception, and make sure, that the hot tub cover is closed and locked.

PLEASE NOTE!

- Food, drinks and bottles are forbidden in the hot tub.
- Do not use any soap or bath foam in the hot tub.
- Smoking in the hot tub is forbidden.
- Do not switch off the electricity.
- Do not touch to the temperature button. Use only the jets and light switch.
- Beware: The surroundings of the hot tub may be slippery on winter.
- Do not drain the hot tub from water.
- Silence time is between 23-07.

In case of any problems or questions, please call: +358 29 170 7120. (24/7)
